

Living Allowance Increase Request

2023-2024

1700 Hour CONSTRUCTION Member

The base living allowance for a 1700-hour member is \$20,100. Service sites can increase their member’s living allowance up to a maximum of \$35,200. You are required to pay FICA on the increase amount.

The total increase and FICA must be paid to HHCK before the increase will be distributed to the member. It is cleanest when issued ahead of the program year – it will be distributed equally among the program’s 26 payment periods.

Please follow the formula to find the total amount owed to HHCK (including site contribution amount). Once completed and signed, send to Holly Dennis at hdennis@hhck.org.
